Microboards PF-Pro Disc Printer

Price: $2,995

Microboards PF-Pro Disc Printer
A member of the MX production series, the PF-Pro is the print only version of the new MX series of industrial publishing equipment. Utilizing the same HP technology, the PF-Pro offers low cost-per-print.

Using Microboards patented disc singulation technology, the PF-Pro has enhanced loading and unloading for seamless operation. With a 100 disc input capacity, the PF-Pro is ideal for unattended operation Just load the discs and let it do the rest!

Using the latest HP inkjet technology, the MX Series' disc printer uses separate ink cartridges to achieve high speed, high quality, and low cost-per-print. C,M,Y, (cyan, magenta, yellow) and black cartridges eliminate waste while together printing a massive 1000 discs! Light or text only discs come in at 2 cents per print, while full coverage discs are around .09 to .16 cents.

Includes simple label software. Use a point-and-click application to design your label or import your label from Photoshop directly to the software.
